

1" BREAKER BAR 990 MM DIN 3122

- Chrome vanadium steel making it long-lasting and resistant to wear, offering a high level of resilience
- Manufactured to DIN 3122 standards assures industry-approved quality and performance, offering ample force for loosening and tightening stubborn nuts and bolts
- Square drive with ball detent retainer guarantees a secure socket fit, reducing slippage during high-torque applications

The TengTools 990 mm 1" swivel-head Breaker bar for professionals in the automotive and engineering sectors serves as a dependable companion for high-torque applications. Fabricated from premium chrome vanadium steel and compliant with DIN 3122 regulations, the tool is engineered for longevity and reliable performance, boasting a minimum torque capacity of 2515 Nm. The inclusion of a ball detent retainer on the square drive ensures a reliable engagement with the socket.

General information

Country of origin: Taiwan
