

1/2" TORQUE WRENCH 40 - 210 NM

- 1/2" torque wrench
- $\pm 4\%$ accuracy
- Click-type mechanism with integrated angular gauge
- Reversible 24-teeth ratchet mechanism (DIN3122) with 15° swing arc
- Designed for clockwise fastening of right-hand threads
- Primary Nm scale with additional ft/lb reference scale
- Twist locking feature to secure set torque
- Handle markings for correct pressure application
- Supplied in a durable storage case
- Individually tested to comply with ISO 6789 standards

TengTools 1292AG-EP 1/2" torque wrench is precise and durable, intended for professional use in medium-duty tasks requiring torque between 40-210 Nm and accuracy of $\pm 4\%$, such as working with vehicle suspension systems or maintenance of industrial equipment. It features a DIN3122-compatible reversible 24-teeth ratchet mechanism with a 15° swing arc, specifically designed for clockwise fastening of right-hand threads. The click-type mechanism emits an audible signal when the required torque is reached, preventing over-torquing of the fastener. An integrated angular gauge allows for precise post-tightening. It has a primary Nm scale and a secondary ft/lb scale for ease of use with different measurement standards. A twist locking feature ensures the set torque is maintained, reducing the risk of accidental adjustments during use. Clear markings on the handle indicate where to place the hand. The tool comes with a durable storage case for easy transport and long-term performance in demanding environments. Each torque wrench is assigned a unique number and individually tested to comply with ISO 6789 standards and comes with a 'Declaration of Conformance' for guaranteed accuracy.

General information

Country of origin: Taiwan
Barcode: 5020385030978
Tariff code Europe: 8204120000
ECCN US: EAR99
ETIM: EC002132
UNSPSC: 27111715

Features

Attributes

Product type: Torque Wrenches
Drive: 1/2"
Number of teeth: 24
Range: 40-210 Nm
Scale resolution: 1
Range 2: 30-150 ft-lb
Scale 2 resolution: 0.738
Accuracy: $\pm 4\%$
Calibration certificate: Factory
Reverse direction: Flip reverse lever
Preset: No
Angular gauge: Yes
Digital: No
Bi-directional: No
Mechanism: Click
Tethering facility: No

Dimensions

Net weight (g): 1340
Width (mm): 46.9
Length: 465 mm

DESIGNED IN SWEDEN

TengTools is a Swedish company present in more than 30 markets worldwide, and offers hand tools in smart storage solutions for demanding professionals within the automotive, maintenance and engineering sectors, as well as motor sport enthusiasts who aspire to use the same tools as top mechanics across the globe.
