

1/2" TORQUE WRENCH BI-DIRECTIONAL 70 - 350 NM CT

- 1/2" torque wrench
- $\pm 4\%$ accuracy
- Designed for both clockwise and counterclockwise fastening
- Click-type mechanism with audible torque signal
- Integrated angular gauge for post-tightening adjustments
- Primary Nm scale with additional ft-lb reference scale
- Reversible 24-teeth ratchet mechanism (DIN3122) with 15° swing arc
- Push-through square drive for easy directional changes
- Twist lock to secure set torque
- Handle markings for correct force application
- Measures 465 mm in length and supplied in a durable storage case

The TengTools 1292AG-E4R 1/2" torque wrench delivers accurate torque control, with a range of 70–350 Nm and $\pm 4\%$ accuracy, suitable for demanding maintenance and assembly of equipment with larger fasteners and components requiring precise torque values. The wrench is equipped with an easy-to-read dual scale, displaying both Nm and ft/lb measurements, making it versatile for various applications across automotive, aerospace, and heavy machinery sectors. This bi-directional tool incorporates an in-built angular gauge that is easy to use and simplifies after-tightening adjustments. A durable click-type mechanism provides clear and accurate feedback when the desired torque is reached. To make sure the wrench is used in a consistent manner it features markings on the handle showing where to place the hand. Its twist locking facility maintains the set torque, preventing accidental changes during use. The reversible 24-teeth ratchet mechanism, compliant with DIN3122 standards, has a 15° swing arc for precise right-hand (clockwise) and left-hand (counterclockwise) fastening. The push-through square drive further enhances adaptability. The tool is stored in a protective case, making transportation and storage safe and convenient. Each torque wrench is assigned a unique number and individually tested to comply with ISO 6789 standards and comes with a 'Declaration of Conformance' for guaranteed accuracy. All CT models undergo an additional check for conformance before being dispatched from the TengTools warehouse in the UK.

General information

Country of origin: Taiwan
Barcode: 5020385303683
Tariff code Europe: 8204120000
ECCN US: EAR99
ETIM: EC002132
UNSPSC: 27111715

Features

Attributes

Product type: Torque Wrenches
Drive: 1/2"
Number of teeth: 24
Range: 70-350 Nm
Scale resolution: 1
Range 2: 50-250 ft-lb
Scale 2 resolution: 0.738
Accuracy: $\pm 4\%$
Calibration certificate: New
Reverse direction: Push through
Preset: No
Angular gauge: Yes
Digital: No
Bi-directional: No
Mechanism: Click
Tethering facility: No

Dimensions

Net weight (g): 2400
Width (mm): 47.1
Length: 632 mm

DESIGNED IN SWEDEN

TengTools is a Swedish company present in more than 30 markets worldwide, and offers hand tools in smart storage solutions for demanding professionals within the automotive, maintenance and engineering sectors, as well as motor sport enthusiasts who aspire to use the same tools as top mechanics across the globe.
