

INSERT TORQUE WRENCH 9 X 12, 20 - 100 NM

- Insert torque wrench for 9×12 mm interchangeable insert tools
- Torque range of 20–100 Nm with $\pm 4\%$ accuracy
- Click-type mechanism signals when torque is reached
- Supports clockwise and counterclockwise torquing
- Nm scale with 0.5 Nm resolution
- Locking button to secure torque setting
- Compact head for access in confined spaces
- Ergonomic bi-material grip with marked pressure application point
- Individually tested to ISO 6789 standards with unique serial number and Declaration of Conformance

The TengTools 1292P912 torque wrench is designed for use with 9×12 mm interchangeable socket tools within a torque range of 20-100 Nm with an accuracy of $\pm 4\%$. The click mechanism emits an audible signal when the set torque has been reached. The tool is suitable for both clockwise and counterclockwise torquing, ensuring controlled tightening of right- and left-threaded fasteners. To tighten left-hand threaded fasteners, turn the insert tool around. The Nm scale, with a 0.5 Nm resolution, is simple to adjust and easy to read, allowing for precise torque settings. A locking button ensures that the selected torque is maintained during use. With a compact head, the torque wrench can be used even in tight spaces where larger tools may not fit. The ergonomic two-component handle provides a firm grip, and has a marked section showing where to place the hand for improved accuracy. The tool is supplied in a protective storage case for easy transportation, and has a weight of 862 g and a length of 400 mm. Each torque wrench is individually tested to meet ISO 6789 standards and comes with a unique serial number and a factory-issued 'Declaration of Conformance.'

General information

Country of origin: Taiwan
Barcode: 5020385033016
Tariff code Europe: 8204120000
ECCN US: EAR99
ETIM: EC002132
UNSPSC: 27111715

Attributes

Product type: Torque Wrenches
Range: 20-100 Nm
Scale resolution: 0.5
Accuracy: $\pm 4\%$
Calibration certificate: Factory
Insert tool size: 9 x 12 mm
Preset: No
Angular gauge: No
Digital: No
Bi-directional: Yes
Mechanism: Click
Tethering facility: No

Dimensions

Net weight (g): 862
Width (mm): 36
Length: 400 mm

DESIGNED IN SWEDEN

TengTools is a Swedish company present in more than 30 markets worldwide, and offers hand tools in smart storage solutions for demanding professionals within the automotive, maintenance and engineering sectors, as well as motor sport enthusiasts who aspire to use the same tools as top mechanics across the globe.
