

## 3/4" TORQUE WRENCH 140 - 700 NM

- Equipped with an in-built angular gauge for easier after tightening
- Click type mechanism to signal when the required torque is reached
- Additional ft/lb reference scale
- Marked to show the correct place where pressure should be applied
- Twist locking facility to ensure the set torque is maintained
- Reversible 24 teeth ratchet mechanism (DIN3122) giving 15° increments
- Designed to torque right hand (clockwise) fasteners
- Accurate to +/- 4% and conforms to ISO6789 for assured accuracy
- Each torque wrench has it's own individual certification number
- Supplied in a handy storage case

TengTools 3492AG-E1 torque wrench with 3/4" square drive offers precision and performance for professional users in heavy industries such as aerospace and automotive. It has a torque range of 140–700 Nm and an accuracy of  $\pm 4\%$  with a clear scale showing torque values in both Nm and ft/lb. It features a click mechanism that signals when the desired torque is reached, and an integrated angular gauge that simplifies post-tightening procedures. The secondary ft/lb scale makes it more suitable for different measurement systems, while markings on the handle indicate where to place the hand for correct force application. It is designed with user-friendliness in mind and has a twist lock that maintains torque settings during use. A reversible 24-teeth ratchet mechanism with a 15° swing arc ensures easy and precise tightening of right-hand threads. A durable storage case is included, making the torque wrench easy to transport. Each torque wrench is assigned a unique number and individually tested to comply with ISO 6789 standards and comes with a 'Declaration of Conformance' for guaranteed accuracy.
