

3/4" TORQUE WRENCH BI-DIRECTIONAL 65 - 450 NM CT

- 3/4" torque wrench
- $\pm 4\%$ accuracy
- Bi-directional fastening for clockwise and counterclockwise use
- Integrated angular gauge for post-tightening adjustments
- Click mechanism with clear torque signal
- Primary Nm scale with additional ft/lb reference scale
- Reversible 24-teeth ratchet mechanism (DIN3122) with 15° swing arc
- Push-through square drive for easy directional changes
- Twist lock to secure set torque
- Handle markings for correct force application
- Supplied in a handy storage case

TengTools 3492AG-ER 3/4" torque wrench offers precision and reliability for professional applications, delivering a torque range of 65–450 Nm with a $\pm 4\%$ accuracy. This bi-directional torque wrench is engineered for ease of use and caters to various sectors, including heavy-vehicle maintenance and installation tasks where torque precision is vital to long-term reliability. Equipped with an in-built angular gauge, it simplifies after-tightening tasks. The click-type mechanism provides an audible and tactile signal when the required torque is reached, preventing over-torquing. A secondary reference scale in ft/lb enhances versatility, while clear markings on the handle show the correct hand placement to ensure accuracy. The twist locking facility ensures that the set torque is maintained throughout the task. The reversible 24 teeth ratchet mechanism complies with DIN3122 standards and offers 15° swing arc for smooth clockwise and counterclockwise fastening. The push-through square drive allows efficient torque application on both right-hand and left-hand fasteners. The wrench is supplied in a handy storage case for easy transportation and protection. With a net weight of 3840 g, a width of 72.5 mm, and a length of 850 mm, this tool is designed for durability and reliability in demanding environments. Each torque wrench is assigned a unique number and individually tested to comply with ISO 6789 standards and comes with a 'Declaration of Conformance' for guaranteed accuracy. All CT models undergo an additional check for conformance before being dispatched from the TengTools warehouse in the UK.

General information

Country of origin: Taiwan
Barcode: 5020385303805
Tariff code Europe: 8204120000
ECCN US: EAR99
ETIM: EC002132
UNSPSC: 27111715

Features

Attributes

Product type: Torque Wrenches
Drive: 3/4"
Number of teeth: 24
Range: 65-450 Nm
Scale resolution: 5
Range 2: 48-330 ft-lb
Scale 2 resolution: 3.69
Accuracy: $\pm 4\%$
Calibration certificate: New
Reverse direction: Push through
Preset: No
Angular gauge: Yes
Digital: No
Bi-directional: Yes
Mechanism: Click
Tethering facility: No

Dimensions

Net weight (g): 3840
Width (mm): 72.5
Length: 850 mm

DESIGNED IN SWEDEN

TengTools is a Swedish company present in more than 30 markets worldwide, and offers hand tools in smart storage solutions for demanding professionals within the automotive, maintenance and engineering sectors, as well as motor sport enthusiasts who aspire to use the same tools as top mechanics across the globe.
