

3/8" TORQUE WRENCH 5 - 25 NM

- 3/8" torque wrench
- $\pm 4\%$ accuracy
- Click-type mechanism with integrated angular gauge
- Reversible 24-teeth ratchet mechanism (DIN3122) with 15° swing arc
- Shift lever for quick single-handed direction changes
- Additional ft/lb reference scale
- Twist lock to secure set torque
- Handle markings for correct force application
- Supplied in a durable storage case

TengTools 3892AG-E1 torque wrench with 3/8" square drive is ideal for applications requiring tightening torque of 5-25 Nm, such as precision tightening of small components like electronic connectors or fasteners in confined spaces. It is intended for right-hand threads and the reversible ratchet mechanism with 24 teeth (DIN3122) has an accuracy of $\pm 4\%$ and a 15° swing arc. The shift lever allows quick single-handed direction changes. The ratchet mechanism has an integrated angular gauge that simplifies post-tightening, increasing both efficiency and accuracy. A secondary ft/lb scale makes it suitable for various tasks. Clear markings on the handle indicate where to place the hand, optimizing both performance and force distribution. A twist lock ensures that the set tightening torque remains the same during use and prevents accidental adjustments. With a weight of 606 g and a width of 27.6 mm, this 277 mm long torque wrench is both robust and easy to handle. It comes in a durable and practical storage case for transport and protection during professional use. Each torque wrench is assigned a unique number and individually tested to comply with ISO 6789 standards and comes with a 'Declaration of Conformance' for guaranteed accuracy.

General information

Country of origin: Taiwan
Barcode: 5020385030244
Tariff code Europe: 8204120000
ECCN US: EAR99
ETIM: EC002132
UNSPSC: 27111715

Features

Attributes

Product type: Torque Wrenches
Drive: 3/8"
Number of teeth: 24
Range: 5-25 Nm
Scale resolution: 0.5
Range 2: 4-18 ft-lb
Scale 2 resolution: 0.369
Accuracy: $\pm 4\%$
Calibration certificate: Factory
Reverse direction: Flip reverse lever
Preset: No
Angular gauge: Yes
Digital: No
Bi-directional: No
Mechanism: Click
Tethering facility: No

Dimensions

Net weight (g): 606
Width (mm): 27.6
Length: 277 mm

DESIGNED IN SWEDEN

TengTools is a Swedish company present in more than 30 markets worldwide, and offers hand tools in smart storage solutions for demanding professionals within the automotive, maintenance and engineering sectors, as well as motor sport enthusiasts who aspire to use the same tools as top mechanics across the globe.
