

3/8" TORQUE WRENCH PLUS 12 - 60 NM

- 3/8" torque wrench Plus
- $\pm 4\%$ accuracy
- 72-teeth ratchet mechanism (DIN3122) with 5° swing arc
- Click-type mechanism with audible and tactile torque signal
- Ergonomic bi-material handle with Nm scale
- Locking button to secure set torque
- Quick-release button for efficient socket changes
- Twist reverse function for easy direction changes
- Designed for clockwise fastening of right-hand threads
- Supplied in a sturdy storage case

TengTools 3892P060 3/8" torque wrench is intended for professional use, with a torque range of 12–60 Nm and an accuracy of $\pm 4\%$. It features a 72-teeth ratchet mechanism that emits an audible signal when the set torque is reached. The torque wrench is easy to adjust thanks to a clear Nm scale and a locking button that prevents accidental changes to the settings. The scale has a resolution of 0.5 Nm, allowing for very precise torque adjustments. The compact head is designed for efficient use in tight spaces, making it practical for maintenance of vehicle engines and machine components. The tool has a quick-release button and twist reverse feature, allowing you to easily change tools and quickly switch between tightening and loosening. It is constructed in accordance with DIN 3122 and meets strict quality standards. This torque wrench is designed for clockwise fastening of right-hand threads and offers versatility in various applications. The ergonomic bi-material handle is comfortable and has markings indicating where to place the hand for consistent results. With a weight of 930 g, a width of 36 mm, and a length of 380 mm, the tool is robust yet easy to handle. It comes in a protective storage case for safe transport and storage. Each torque wrench is assigned a unique number and individually tested to comply with ISO 6789 standards and comes with a 'Declaration of Conformance' for guaranteed accuracy.

General information

Country of origin: Taiwan
Barcode: 5020385032774
Tariff code Europe: 8204120000
