

COMPACT TIN SNIP STRAIGHT CUT CR-MO 190MM

- Compact size that is easy to carry and store, ideal for on-the-go jobs or limited workspace
- Drop forged chrome molybdenum alloy steel blades with serrated edges provides exceptional durability and cutting performance, extending the tool's lifespan
- Cutting capacity up to 1.5 mm steel or 0.9 mm stainless steel, suitable for a variety of applications
- The bi-material grip and spring-loaded mechanism combo facilitates quicker and easier repetitive cutting, boosting efficiency and comfort
- Quick release safety lock prevents accidental opening, enhancing user safety

The TengTools straight-cut 190 mm compact tin snip fulfills the requirements of professionals who prioritize mobility without compromising on performance. Crafted from chrome molybdenum alloy steel, the blades feature serrated edges for exceptional durability and precise cutting. With a cutting capacity of up to 1.5 mm in steel or 0.9 mm in stainless steel, this versatile tool is suitable for tasks such as cutting steel sheets, ductwork, or trimming metal edges to exact dimensions. The snip is equipped with a bi-material handle and a spring-loaded mechanism, allowing for quicker and more comfortable repetitive cutting. For added safety, it includes a quick-release safety lock to prevent accidental opening.
