

SIDE SHELF FOR ROLLER CABINET 457 X 100 X 50MM

- Provides extra storage for long items without compromising cabinet space
- Attaches to cabinet side, preserving the unit's appearance
- Includes bolts for secure installation with four fixing points
- Constructed from 2mm thick sheet metal for durability
- Powder-coated finish for wear and corrosion resistance

The TengTools 580T side shelf is an accessory intended to augment the storage capabilities of TengTools roller cabinets. Measuring 457 x 100 x 50 mm, this shelf provides additional storage space for long items, effectively utilizing the area between the side handle and the cabinet. This allows for the convenient placement of longer tools or materials to make them accessible without compromising the cabinet's existing storage capacity. Constructed to attach to the bottom of the cabinet side it also does not detract from the overall appearance of the storage unit. Installation is facilitated by four fixing points, with bolts included for a secure attachment. The shelf is made from 2 mm thick sheet metal, providing a robust and durable storage option capable of withstanding the demands of a professional workshop environment. The side cabinet is finished with a powder coating offering basic protection against wear and corrosion.
