

## RECHARGEABLE HEADLAMP 350 LM

- Five light modes with 230° wide-area visibility
- COB and XPE LEDs with 350-lumen maximum output
- 1200 mAh rechargeable battery with up to 2.5 hours runtime
- USB-C charging
- Wave induction technology for gesture-controlled operation
- Durable, stretchable headband with flexible silicone lamp shell
- IPX4 water resistance rating
- Compact and lightweight design (20 x 32 x 300 mm, 71 grams)
- REACH compliant

The TengTools 586D is a REACH compliant rechargeable 350 lm headlamp which provides five light modes, offering illumination up to 230° for wide-area visibility. Equipped with COB and XPE LEDs, it delivers a maximum output of 350 lumens and a runtime of up to 2.5 hours on a full charge. The rechargeable 1200 mAh battery charges via USB-C. The integrated wave induction technology is a gesture-controlled feature that allows you to turn the light on or off by simply waving your hand near the headlamp's sensor. This eliminates the need to manually press buttons, which can be inconvenient or impractical when your hands are dirty, wet, or occupied with tools. The headlamp also features a durable and stretchable headband with a flexible silicone lamp shell that adapts to any head size for both comfort and stability. Rated IPX4 for water resistance, the 586D is built to handle light rain and splashes. Measuring 20 x 32 x 300 mm and weighing only 71 grams, the headlamp is both compact and lightweight, making it easy to wear whether you're working in confined spaces or outdoors.

### General information

**Country of origin:** China  
**Barcode:** 5020385086227  
**Tariff code Europe:** 8513100000
