

1/4" MAGNETIC PICK UP SOCKET

- 1/4" square drive socket with magnetic tip
- Made from durable chrome vanadium (Cr-V) for longevity and strength
- Satin finish on the socket enhances grip and handling
- Ball retention groove on the female end for a secure ratchet connection
- Comes with a metal socket clip for easy integration with a socket rail system

The TengTools 1/4" square drive socket with magnetic tip M140060M is an essential tool for professional mechanics and DIY enthusiasts alike for versatility and convenience when retrieving small metal parts from hard-to-reach places. The socket features a ball retention groove on the female end, ensuring a secure fit to the drive since it is meant to be used with an extension bar. The chrome vanadium material offers a balance of toughness and resistance to wear and tear, and the satin finish not only gives the tool a sleek look but also aids in maintaining a firm grip during use. The inclusion of a metal socket clip for socket rail compatibility makes it easy for users to keep their workspace organized and their tools readily accessible.
