

TRIM CLIP REMOVAL TOOL V-SHAPE LARGE

- Blade tips with distinct pivot points ensure safe leverage and minimize the risk of damaging panels or trim
- Versatility in design makes the set suitable for both interior and exterior fastener clips, increasing the tool's utility
- Ergonomically designed bi-material handle offers a comfortable grip, reducing user fatigue during prolonged use
- Design enables easy access to confined spaces, making it a versatile option for a variety of projects
- Includes a tethering hole in the handle for hanging or attachment to a fall protection wire, enhancing workplace safety

This large V-shaped TengTools clip remover tool for dislodging clips on bodywork, panels, and trim simplifies daily tasks for those in such professions. Adapted for both indoor and outdoor use, the design of the blade tip provides good leverage while reducing the risk of techniques that could damage the panel or trim. The tool is built for durability and ergonomics, is compatible with the most common types of clips, and facilitates operations where access may be difficult.
