- Integrated key lock
- Compatible with TengTools Tool Control System

TengTools TCW707K is a 27" classic roller cabinet featuring seven fully extendable drawers, designed for efficient mobile tool storage in workshop and industrial environments. Constructed from heavy gauge steel, the cabinet offers exceptional durability and strength while maintaining compatibility with the TengTools Tool Control System. Each drawer is fully extendable and engineered to accommodate up to four TengTools tool modules (size 1) and one module (size X4) or equivalent, ensuring seamless organisation of tools. The drawers are mounted on ball bearing slides, offering reliable performance even under heavy loads. They are arranged in a configuration of five shallow drawers, each with a 76 mm height, and two deeper drawers at 151 mm, suitable for larger tools or equipment. Each drawer provides a uniform internal width of 576 mm and a depth of 385 mm, delivering a consistent layout across the cabinet. With a weight capacity of 30 kg per drawer, the cabinet supports professional-level tool storage demands. Mobility is enhanced with four 5" × 2" heavy-duty castors, including two fixed and two braked swivel castors, providing stability during use. A robust metal push handle on the side enables easy manoeuvrability across workspaces. The cabinet measures 686 mm in width, 458 mm in depth, and 1037 mm when fitted with castors. It is finished in a red powder coating for added durability and corrosion resistance and secured by an integrated key lock.
