

FLEX HANDLE SET FOAMX4 3 PIECES

- 1/4", 3/8", and 1/2" drive flex handles measuring 200 mm, 300 mm, and 400 mm
- Constructed from chrome vanadium steel with a satin finish
- Long handles for increased leverage and torque
- Ball detent retainer on the square drive for secure socket attachment
- Ergonomic bi-material grip for comfort during lengthy mechanical tasks
- High density 3-layer EVA-foam insert module size X4 (FOAMX4) for efficient organization and protection

The TengTools long arm flex handle set TEXBR03 is a 3-piece collection that provides the necessary leverage for handling heavy-duty fastening tasks when assembling or disassembling challenging components. This set comprises flex handles in 1/4", 3/8", and 1/2" drives, each measuring 200 mm, 300 mm, and 400 mm respectively, to accommodate a variety of applications where additional torque and maneuverability are required. These tools are crafted from chrome vanadium steel with a satin finish that enhances grip and control, particularly in environments where moisture or grease is present. The long handles provide increased leverage and are engineered to facilitate the exertion of greater force with less effort. Each flex handle features a ball detent retainer on the drive end, ensuring a secure socket connection and reducing the likelihood of slippage during use. The bi-material grips are ergonomically designed for comfort, mitigating hand fatigue during lengthy mechanical tasks. The set is organized in a TengTools high density 3-layer EVA-foam insert module size X4 (FOAMX4), which offers convenient storage and protects the tools, contributing to their longevity and reliability.

General information

Country of origin: Taiwan
Barcode: 5020385034150
Tariff code Europe: 8204200000
ECCN US: EAR99
UNSPSC: 27111703

Dimensions

Net weight (g): 1386
Width (mm): 570
Depth (mm): 115
Height (mm): 45

Attributes

Product type: Sockets & Accessories Sets
Number of pieces: 3
Drive: 1/4", 3/8", 1/2"
Inlay material: FOAM
Type of set: FOAMX4
