The TengTools 26" PRO35™ Mega Master tool kit TKS26B1033T in black is an expertly assembled 1033-piece general tool kit for a wide range of tasks in industrial and mechanical sectors. This tool kit consists of three stacked robust 26" storage units: a 9-drawer roller cabinet, a 3-drawer middle tool chest, and a 4-drawer tool chest on top. Together they have a total of 16 fully extendable drawers, each with a load capacity of between 30 and 40 kg and all equipped with smooth-running ball-bearing slides. The overall size of the stacked storage unit is 680 mm wide, 460 mm deep and 1570 mm high when the heavy duty 5" castors are fitted. The tool storage is made of high quality heavy gauge steel that has a 5-step phosphate-free rust protection process which improves corrosion resistance. Two braked swivel castors and two fixed castors, complemented by a comfort handle on the roller cabinet and recessed side handles on the tool chests make the unit easy to move. Stability is further enhanced by the included fixing brackets to secure the tool chests to the roller cabinet. A 3-digit combination lock on each unit ensures that the contents are stored safely. The tool kit encompasses a diverse array of tools, including 1/4, 3/8, 1/2, and 3/4 inch drive sockets, bit sockets, ratchets, impact tools, combination spanners, screwdrivers, and more. Each individual tool set is systematically organised into dedicated modules as part of the TengTools Tool Control System, allowing easy access and quick identification of tools out of place. Each drawer is fitted with a noise-reducing EVA mat to protect both tools and the storage unit. The kit also includes a paper holder.
