The base of the storage unit consists of the TSW26R7 roller cabinet, which has seven drawers: five measuring 75 mm in height and two larger ones at 154 mm, each with a 40 kg capacity. Complementing this is a TSM26R3 tool chest, featuring three drawers - two at 50 mm and one at 75 mm in height. The setup is completed by the TST26R4 tool chest on top, housing four drawers, three of which are 50 mm high and one 75 mm. Both tool chests are equipped with recessed side handles for easy relocation. The tool kit encompasses a broad spectrum of tools including 1/4, 3/8, and 1/2 drive 12-point sockets, bit sockets, ratchets, impact tools, combination spanners, screwdrivers, bits, T-handle hex & tx keys, pliers, files, pullers, drills, and measuring tools, all organized in the TengTools Tool Control System. This system ensures an orderly workspace and aids in quickly identifying missing tools. All drawers across the units are lined with EVA mats and fitted with smooth running full extension ball bearing slides, enhancing tool protection and drawer operation. The durability of the stack system is assured with its heavy gauge top-quality steel construction, complete with a 5-step phosphate-free rust prevention process to resist wear and corrosion. Each unit is secured with a 3-digit combination lock, with an option to switch to a key lock. Mobility is facilitated by two 5" braked swivel castors and two 5" fixed castors, along with a comfort grip handle on the roller cabinet. The roller cabinet also feature accessory holes for customization and comes with a paper roll holder for added convenience.
