The tools in this 516-piece tool kit are organized in a TSW26R7 roller cabinet that measures 680 mm in width, 460 mm in depth, and 960 mm in height with castors mounted, making it suitable for a variety of industrial environments. It features seven fully extendable drawers: five drawers with a height of 75 mm and two taller drawers at 154 mm, each with a load capacity of up to 40 kg. The tool kit includes a wide range of hand tools such as 1/4", 3/8", and 1/2" drive sockets, bit sockets, ratchets, screwdrivers, bits, T-handle hex keys and TX keys, pliers, and other general tools. Each tool set is organized in dedicated modules that are part of the TengTools Tool Control System, allowing for easy access and quick identification of tools that are out of place. The tools are distributed across six of the seven drawers, leaving room for future expansion and customization. This tool storage features a 3-piece heavy-duty steel chassis designed for daily professional use. The roller cabinet is treated with a phosphate-free 5-step rust prevention process to enhance corrosion resistance. Each drawer is equipped with smooth-running ball bearing slides and is lined with noise-reducing EVA mats to protect both the tools and the storage unit. A 5 mm thick EVA mat is also included for the top surface of the roller cabinet. Mobility and stability are ensured by two 5" braked swivel castors and two 5" fixed castors, complemented by a comfort handle for easy maneuvering. The roller cabinet also features a 3-digit combination lock for increased security and accessory holes on both sides for additional customization and attachment of accessories.
