The TengTools 37" PRO35™ roller cabinet TKW37B1008T in black is an extensively equipped 1008-piece tool kit, specifically tailored for professionals in the mechanical auto sector. This comprehensive kit is housed in a robust 37" roller cabinet, which measures 964 mm in width, 460 mm in depth, and 985 mm in height with castors mounted. The roller cabinet is built for durability and features eight fully extendable drawers: seven with a height of 75 mm and one taller drawer at 154 mm. The first seven drawers can each support up to 25 kg, while the eighth taller drawer is built for bulkier items and has a 40 kg capacity. Each drawer operates on smooth running ball bearing slides, and features EVA mats that are both noise reducing and protective. A user-friendly 3-digit combination lock locks all drawers simultaneously and eliminates the problem of handling keys, which can be lost or copied. The construction of the cabinet features a 3-piece heavy gauge steel frame, and the storage unit has been treated with a 5-step phosphate-free rust prevention process for corrosion resistance. Mobility and stability are achieved through 5" heavy-duty castors that are 2" wide, two braked swivel castors and two fixed castors, and a comfort grip handle on the side of the roller cabinet. This tool kit includes a wide array of tools essential for mechanical auto professionals: 1/4, 3/8, and 1/2 inch drive sockets, bit sockets, ratchets, impact tools, combination spanners, screwdrivers, T-handle hex & tx keys, pliers, measuring and inspection tools, pullers, torque wrenches, and more. Each toolset is precisely arranged in a dedicated module as part of the TengTools Tool Control System, allowing for a flexible and dynamic tool kit arrangement. This system enhances organization and aids in quickly identifying any missing or inadvertently misplaced tools. Additional features include an 18 mm thick worktop in hard-wearing laminated MDF, a vice and vice shelf, a magnetic bits tray, and a paper holder. The tool kit also comes with seven TTZ01 storage modules in tool tray module size X2 (TTX2) featuring 6 compartments, ideal for storing small components and consumables.
