It is built for durability, with a 3-piece heavy gauge steel frame and a 5-step phosphate-free rust prevention process to enhance corrosion resistance and longevity. It features seven fully extendable drawers: five with a height of 75 mm for standard tools and two larger drawers at 154 mm for heavier items. The first five drawers can hold up to 25 kg each, and the larger drawers can hold 40 kg each. Each drawer has ball bearing slides and a noise-reducing, protective EVA mat. The tool kit comes with tools in six of the seven drawers, leaving plenty of room to add more tools when needed. The tool kit includes essential tools for automotive work: 1/4", 3/8", and 1/2" drive sockets, bit sockets, ratchets, impact tools, combination spanners, screwdrivers, bits, T-handle hex & tx keys, pliers, torque wrenches, pullers, taps & dies, inch spanners & sockets, and various general tools. The TengTools Tool Control System ensures tools are methodically organized, making it easy to identify missing or misplaced tools. The roller cabinet has accessory holes on both sides for added customization. A user-friendly 3-digit combination lock secures all drawers at once, eliminating the need for keys that can be lost or copied. Mobility is ensured with 2" wide heavy-duty castors, including two 5" braked swivel castors and two 5" fixed castors, complemented by a comfort grip handle on the side of the roller cabinet. The kit also includes a durable 18 mm laminated MDF worktop.
