

26" PRO35™ LOW ROLLER CABINET 6 DRAWERS RED

- Space-efficient design that fits under low workbenches
- Six fully extendable drawers with 30 kg capacity each, compatible with the TengTools Tool Control System
- Drawers with smooth running ball bearing slides and noise reducing EVA mats for protection
- Includes a 3-digit combination lock for secure storage
- 3-piece heavy gauge steel cabinet frame
- Treated with a phosphate free 5-step rust prevention process and powder coat finish

The TengTools 26" PRO35™ low cabinet TSW26R6L with 6 drawers offers a solution for mobile tool storage in professional settings. With its compact dimensions of 680 mm in width, 460 mm in depth, and a low of 656 mm (770 mm with castors), this roller cabinet is ideally suited for space-efficient placement under low workbenches. Designed with a focus on versatility and functionality, the cabinet includes six fully extendable drawers: five measuring 75 mm in height and one taller drawer at 154 mm. This configuration allows for the accommodation of both standard and larger tools, each drawer supporting up to 40 kg. These drawers are designed to facilitate customizable tool organization and can hold any combination of TengTools modules matching the dimensions of four TC1 modules plus a TCX4 module. The drawers are enhanced with durable and smooth running ball bearing slides. Each drawer is also equipped with an EVA mat, adding protection for tools and equipment while minimizing noise during movement. The cabinet's usability is further augmented by accessory holes on both sides, allowing for additional customization. A 5 mm EVA top mat for the top surface provides a stable and durable work area. The cabinet is equipped with a comfort grip handle on the side and heavy-duty castors: two 4" braked swivel castors and two 4" fixed castors for ease of movement and stable positioning. A 3-digit combination lock safeguards the contents. This cabinet has a 3-piece heavy gauge steel frame and features a matte red powder coating complemented by a 5-step phosphate-free rust prevention process to ensure corrosion resistance and durability.
