- 200 mm steel rule with metric and imperial graduations
- Manufactured to DIN and ISO standards
- Organised in three-colour high-density EVA foam module
- Fits 26" TengTools drawers (575 mm x 380 mm)

The TengTools TTEX15 15-piece general tool set provides a versatile selection of tools for professional measuring, striking, cutting, and punching tasks. Designed to meet the demands of industrial and workshop environments, each tool is manufactured to DIN and ISO standards, ensuring high performance and durability. This set includes a 24 TPI hacksaw for precise metal cutting and a utility knife for general-purpose cutting applications. For material shaping and chiselling tasks, two flat cold chisels (18 mm and 25 mm) and a 5 mm centre punch are provided. The parallel pin punches, available in sizes from 3 mm to 8 mm, support accurate alignment and driving of pins during assembly and disassembly operations. The striking tools in the set consist of a 24 oz ball pein hammer for heavy-duty applications and a soft face hammer for tasks requiring reduced impact or minimal surface marking. Measuring tools include a 3-metre tape measure with metric and inch markings and a 200 mm steel rule with both metric and imperial graduations, offering flexibility for accurate measurements in various tasks. All tools are organised within a precision cut, three-colour high-density EVA foam module that ensures each item is securely held in place for easy identification and quick access. The foam inlay is precisely designed to fit into 26" (575 mm x 380 mm) TengTools drawers, enabling efficient integration into larger storage systems. Weighing 3.95 kg, the TTEX15 tool set provides a compact and reliable solution for professionals requiring a curated selection of general-purpose tools.
