

LONG ARM RATCHET SET TTX4 3 PIECES

- 1/4", 3/8", and 1/2" square drive ratchets to accommodate a variety of socket sizes
- Long handles provide increased torque, making demanding tasks more manageable
- Twist reverse mechanism for convenient directional changes
- Quick-release feature for swift and secure tool changes
- Bi-material grips offer enhanced comfort and control during use

The TengTools long arm ratchet set TTXRL03 is a 3-piece collection designed to handle the demands of heavy-duty vehicle maintenance and industrial machinery assembly. The set, comprising 1/4", 3/8", and 1/2" drive ratchets, is tailored for tasks requiring high torque and extended reach, such as assembling and disassembling machinery parts in confined spaces. The long handles of the ratchets enhance leverage, enabling users to apply more torque with less effort. Each ratchet in the set features a twist reverse mechanism, allowing for easy directional changes without the need to remove the tool from the fastener. This feature is particularly beneficial in tight spaces where maneuverability is limited. The quick-release function on the ratchets ensures efficient and secure socket changes, enhancing productivity in fast-paced work environments. The bi-material grips of the ratchets are designed for comfort and control. The set is organized in a TengTools TTX4 tool tray module, ensuring tools are easily accessible and well-protected.

General information

Country of origin: Taiwan
Barcode: 5020385034105
Tariff code Europe: 8204200000
